Prerequisites

Participants should have a basic knowledge of cloud computing and the public cloud. Participants must complete Firewall Essentials: Configuration and Management (EDU-210) 11.1 course and the Panorama: Managing Firewalls at Scale (EDU-220) 11.1 or have the equivalent experience.

Participants also must have experience with networking concepts including routing, switching, and IP addressing.

Course Objectives

Successful completion of this three-day, instructor-led course will help enhance your understanding of how to better protect your applications, remote networks, and mobile users using a SASE implementation.

Course Content

The Prisma Access SASE Security: Design and Operation (EDU-318) course describes Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace cloud and mobility by providing network and network security services from the cloud. This course is intended for people in the fields of public cloud security and cybersecurity, or for anyone who wants to learn how to secure remote networks and mobile users.
