Firewall: Troubleshooting (EDU-330)

ID EDU-330 **Price** CHF 2,850.—(excl. VAT) **Duration** 3 days

Who should attend

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

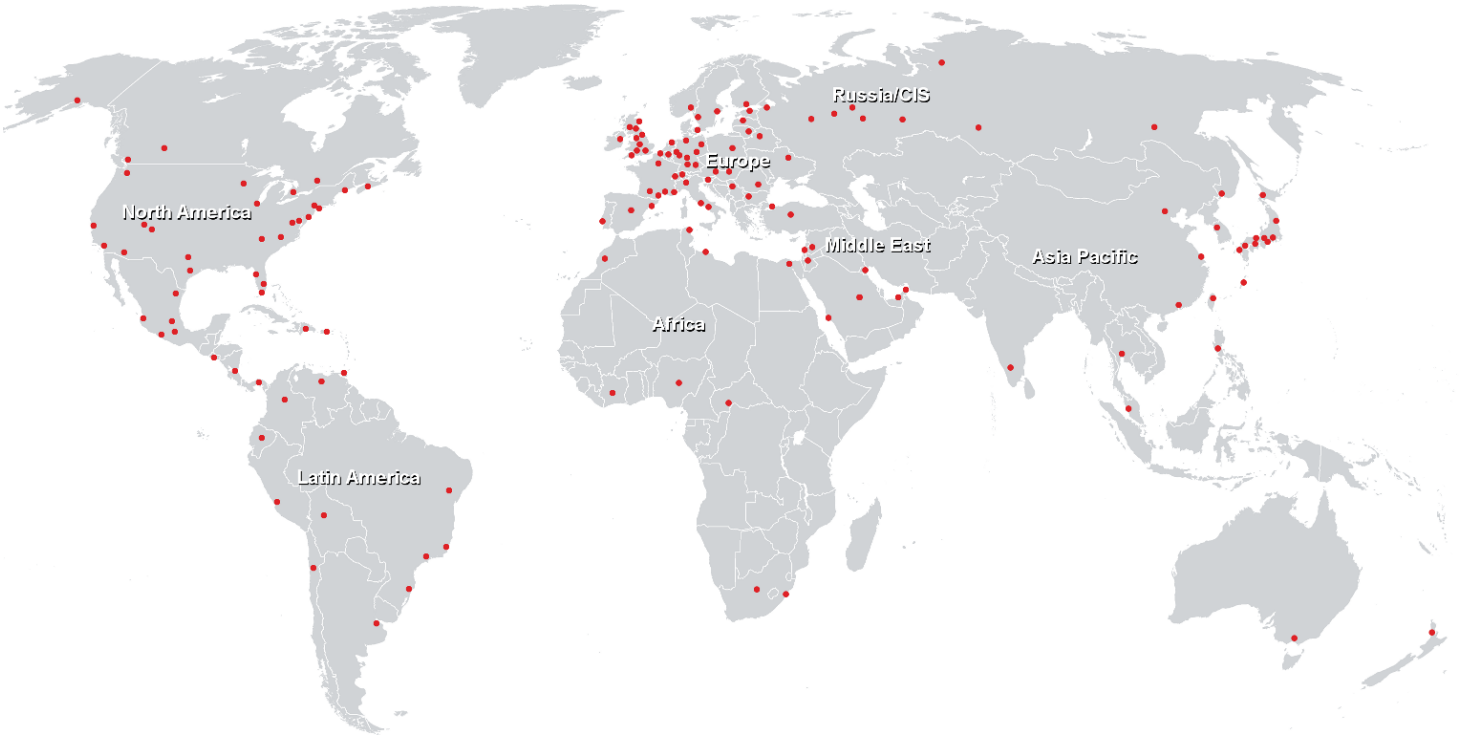

Prerequisites

Participants must complete the Firewall Essentials: Configuration and Management (EDU-210) 11.1 course. Participants must have strong practical knowledge of routing and switching, IP addressing, and network-security concepts, and at least six months of on-the-job experience with Palo Alto Networks firewalls.

Course Objectives

Successful completion of this three-day, instructor-led course should enhance the participant's understanding of how to troubleshoot the full line of Palo Alto Networks next-generation firewalls. Participants will perform hands-on troubleshooting related to the configuration and operation of the Palo Alto Networks firewall. Completion of this class will help participants develop an in-depth knowledge of how to troubleshoot visibility and control over applications, users, and content.
