

Firewall: Troubleshooting (EDU-330)

ID EDU-330 Price CHF 2,850.—(excl. VAT) Duration 3 days

Who should attend

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, Network Engineers, and Support Staff

Prerequisites

Participants must complete the <u>Firewall Essentials: Configuration</u> and <u>Management (EDU-210) 11.1</u> course. Participants must have strong practical knowledge of routing and switching, IP addressing, and network-security concepts, and at least six months of on-the-job experience with Palo Alto Networks firewalls.

Course Objectives

Successful completion of this three-day, instructor-led course should enhance the participant's understanding of how to troubleshoot the full line of Palo Alto Networks next-generation firewalls. Participants will perform hands-on troubleshooting related to the configuration and operation of the Palo Alto Networks firewall. Completion of this class will help participants develop an indepth knowledge of how to troubleshoot visibility and control over applications, users, and content.
