

Cortex XSOAR: Engineering Security Automation Solutions (XSOAR-ESA)

ID XSOAR-ESA Price on request Duration 4 days

Who should attend

- SOC / SIEM / Automation Engineers
- MSSPs and Service Delivery Partners working with XSOAR

This course is part of the following Certifications

Palo Alto Networks XSOAR Engineer (PXSOARE)

Prerequisites

Participants should have a basic understanding of:

- Networking concepts, such as identifying private IPs and domains
- Cybersecurity concepts, such as Indicators of Compromise
- Navigating Windows and Linux environments using the GUI and CLI

Course Objectives

Successful completion of this four-day, instructor-led course should enable students to integrate their existing security tools with Cortex XSOAR to streamline security processes, accelerate security outcomes, and automate manual security-oriented tasks.
