PRINCE2® Agile Practitioner (P2AP)

ID P2AP **Price** CHF 1,290.—(excl. VAT) **Duration** 2 days

Who should attend

You are a project manager or member, leader, CEO or work in the field of project support or change management. You wish to become an expert in the practical application and implementation of PRINCE2 in agile project situations. You have already successfully participated in the PRINCE2 Agile Foundation.

This course is part of the following Certifications

PRINCE2 Agile® Practitioner (P2AP)

Prerequisites

You need the PRINCE2 Agile Foundation certificate to take the exam.

Course Objectives

In 2 days you will deepen the central approaches of PRINCE2 in combination with agile methods. You will get to know all aspects of an agile PRINCE2 project and the process-controlled flow of such a project in practice. You will learn how world-renowned agile best practices (e.g. SCRUM and Kanban) work together with PRINCE2 and how classic and agile project management merge. During the training you will prepare for the official PRINCE2 Agile Practitioner exam.

After the training you would like to have new skills and knowledge. The PRINCE2 Agile Training enables you to do the following:

- You can manage an agile PRINCE2 project and work effectively in practice.
- You are very familiar with the best practices SCRUM and Kanban and can integrate them into a PRINCE2 project.
- You have practical experience in how to manage an agile project effectively and can lead it to the desired success.
- You will receive a globally recognised and valid certificate which officially confirms your practical knowledge.

The PRINCE2 Agile Training is officially accredited and meets the requirements of the Official Accreditor of PRINCE2 (AXELOS). This gives you the guarantee that you will receive all the key content of PRINCE2 Agile.

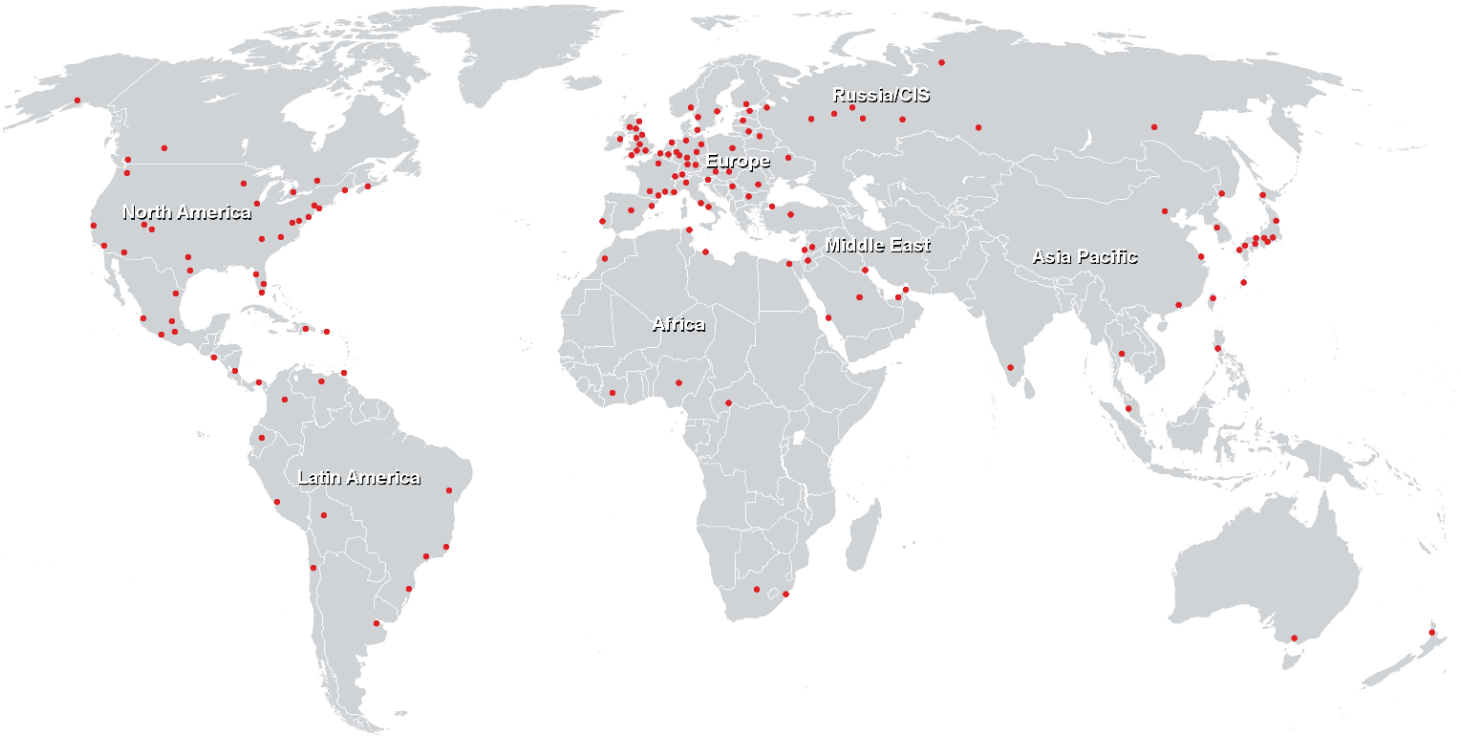

Course Content

The training consists of practical application of PRINCE2 in agile projects and preparation for the official exam. Here is an extract of the training contents:

- Deepening the project process with classical and agile approaches
- weaving the PRINCE2 processes and topics with agile elements
