Prerequisites

You do not need any previous experience to attend PRINCE2 7th edition Foundation.

All necessary contents will be imparted to you in the training.

Course Objectives

The seminar "PRINCE2® 7th edition - Foundation" provides an overview of project management using the PRINCE2 7th edition methodology.

You will receive targeted preparation for the "PRINCE2® 7th edition - Foundation" certification.

During the course, you will be introduced to the PRINCE2 method with the help of practical examples and project scenarios, so that you are able to work in a project management team based on PRINCE2 7th edition. Fast Lane's PRINCE2 7th edition Foundation is officially accredited and meets the requirements of the Official Accreditor of PRINCE2 (AXELOS). This gives you the guarantee that you will be taught all the crucial content of PRINCE2 7th edition.

Course Content

methodology

- Working with specialist literature and case studies
- Learning with the workbook principle
- Teaching talks and lectures

To facilitate your learning and to maximize the practical relevance of the training, we work with different media and learning formats in the course. You will receive the certified technical literature, a workbook and case studies. Your training includes different methods of knowledge transfer. These are e.g. instructional lectures, instructional discussions. Special attention is given to your exam preparation by taking and discussing sample exams.

An important part of our methodology is the qualified training of our trainers. They only learn with officially accredited experts. We guarantee this through a strict, internal training program and the final audit according to the specifications of the official accreditor.

All our trainers are active consultants in practice. This enables us to show you real-life examples and respond to your problems in the best possible way. The combination of training and consulting guarantees you the best possible PRINCE2 7th edition experts for your PRINCE2 7th edition Foundation training.
