Red Hat Satellite 6 Administration with Expertise Exam (EX403) (RH404)

ID RH404 **Price** CHF 4,057.—(excl. VAT) **Duration** 5 days

Who should attend

Senior Red Hat Enterprise Linux system administrators responsible for the management of multiple servers

This course is part of the following Certifications

Red Hat Certified Specialist in Deployment and Systems Management (RHCOE-DEPLOYMENT-SYSTEMS-MGMT)

Prerequisites

- Be a Red Hat Certified Engineer (RHCE®) or demonstrate equivalent experience
- Achieve Red Hat Certified Engineer (RHCE) certification, or equivalent experience.
- Have experience with Red Hat Satellite 6

Course Objectives

Impact on the organization

This offering develops and validates the skills needed to more efficiently design, configure, test, and deploy computer systems within an organization. The ability to apply these skills will reduce unexpected downtime of systems and facilitate more efficient deployment of new systems, applications, and features.

Red Hat has created this offering in a way intended to benefit our customers, but each company and infrastructure is unique, and actual results or benefits may vary.

Impact on the individual

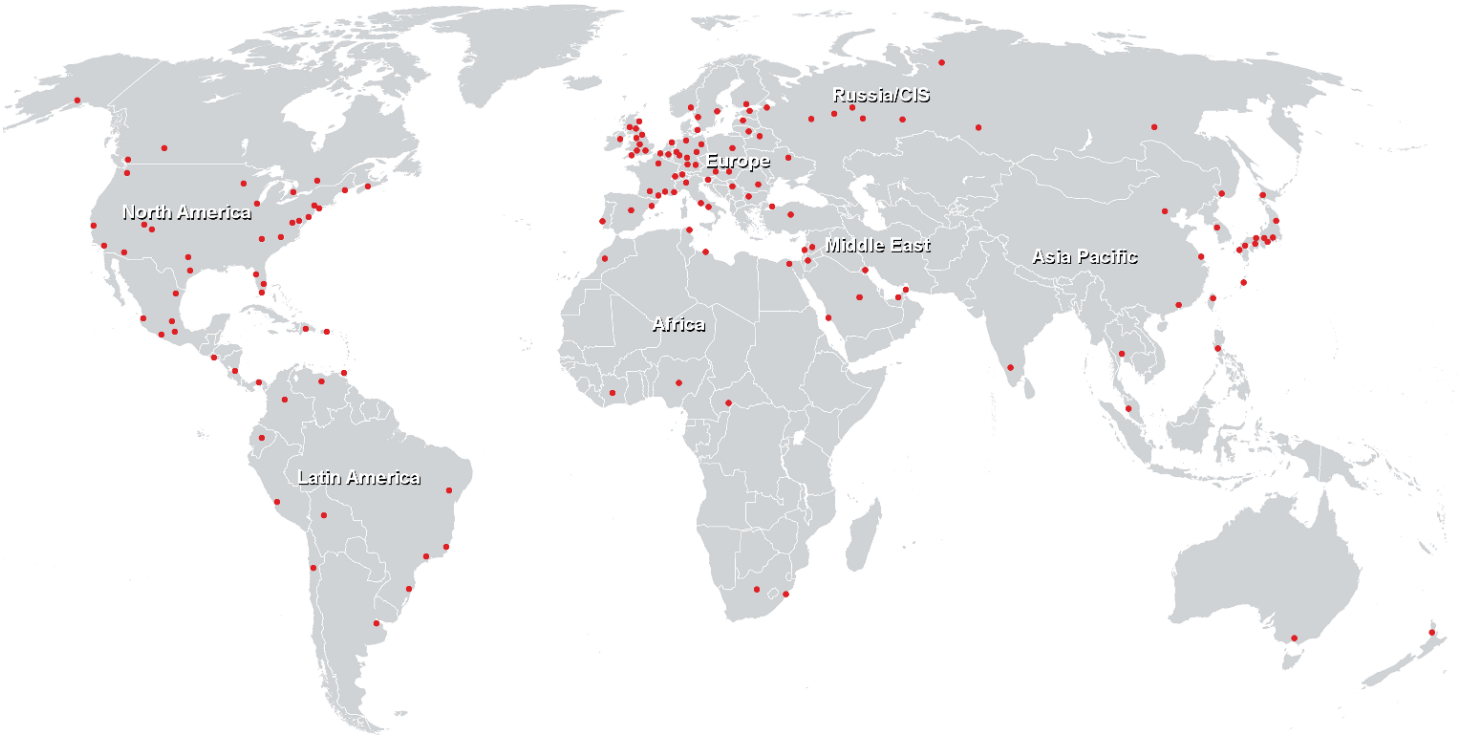

As a result of completing this offering, you should be able to employ the software development life cycle process to plan, create, test, and provision host systems within an organization.

Course Content

- Verify a Red Hat Satellite 6.15 installation.
- Regulate Red Hat Satellite with organizations, locations, users, and roles.
- Manage software with Red Hat Satellite environments and content views.
- Use Red Hat Satellite to configure hosts with Ansible playbooks and roles.
- Provision hosts with integrated software and configuration management.
- Implement Metal-as-a-Service (MaaS) with Satellite discovery and provisioning of unprovisioned hosts.
