SAFe® Advanced Scrum Master (SASM-CP)

ID SASM-CP **Price** CHF 1,900.—(excl. VAT) **Duration** 2 days

Who should attend

This course is built for scrum masters who are ready to grow. If you're already a SAFe Scrum Master, or if you have experience guiding and coaching agile teams, advanced certification is the next step in your path toward career growth. It's ideal for professionals who want to sharpen facilitation tactics, improve the flow of value, and build high-performing teams.

- Scrum Masters
- Team Leads
- Product Owners
- Agile Coaches
- Project Managers
- Engineering Managers

Prerequisites

SAFe® AI-Empowered SAFe Scrum Master (SSM)

Course Objectives

Enterprise-Level Focus:

This learning path prepares you to lead at both the team and ART level. You'll learn how to scale agile practices, improve delivery flow, and become a trusted coach in a complex enterprise environment.

Comprehensive Curriculum:

Learning materials in this path cover advanced facilitation and coaching techniques to help you lead agile teams through conflict and collaborative decision-making, explores SAFe's eight flow accelerators to improve team and ART performance, and introduces leadership strategies for building high-performing, self-directed teams.

Flexible, Modular Learning:

Designed to fit your schedule, this path combines self-paced modules, instructor-led sessions, and guided peer learning. You'll work through foundational topics on your own time, then apply what you've learned in collaborative workshops and through guided exercises.

Practical Application:

This learning path is grounded in real-world experience, and you'll apply your learning through real-world case studies and hands-on practices to reinforce practical skills.

Course Content

Advanced Facilitation & Coaching

Move beyond the basics of a scrum master role. Learn how to support high-performing agile teams, resolve conflict, and guide collaborative decision making in complex, real-world environments.

Accelerate Team and ART Flow

Explore SAFe's eight flow accelerators to identify blockers, improve delivery speed, and help agile teams and ARTs stay aligned and productive.

Build Resilient, Self-Directed Teams

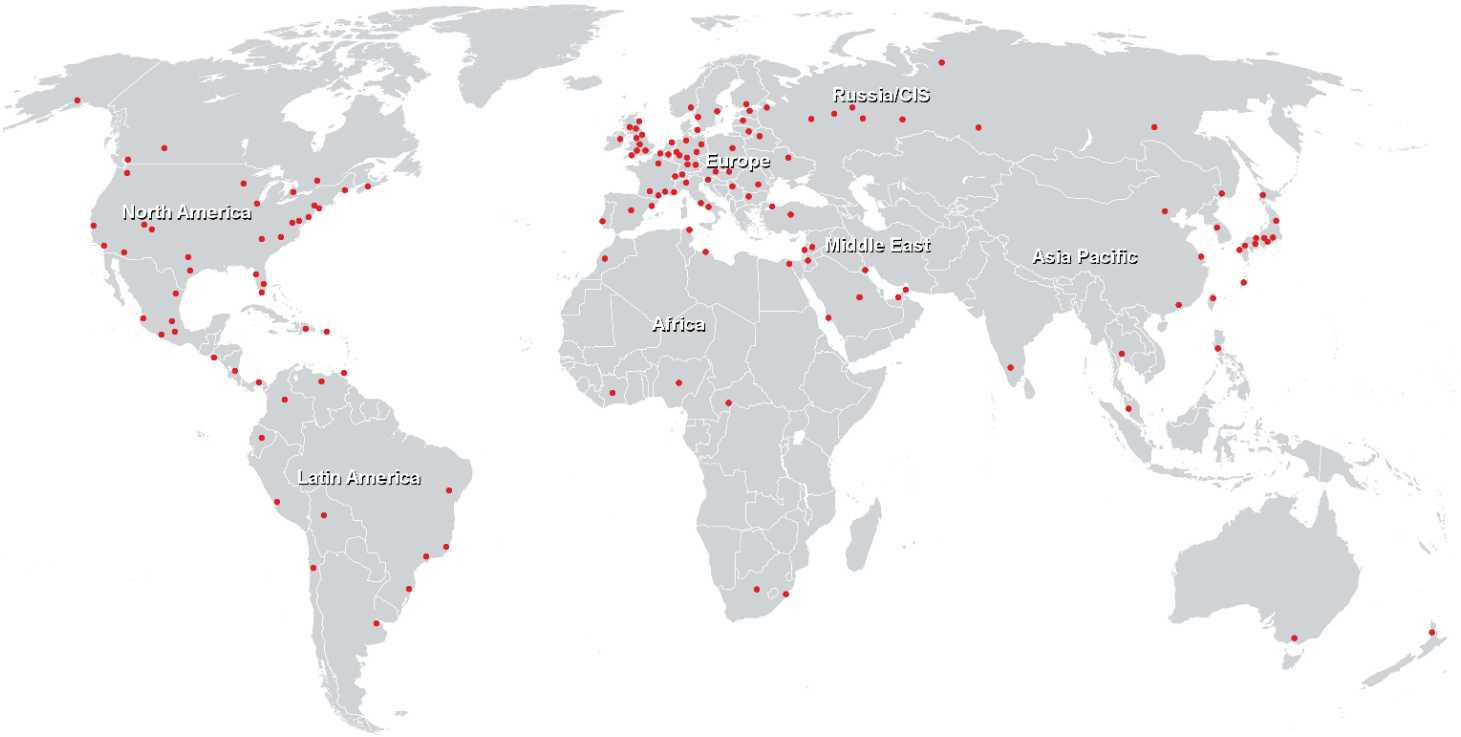

Gain proven techniques to improve team collaboration, support ownership, and foster a culture of continuous learning and improvement.

Apply Skills in Real-World Scenarios

Through case studies, hands-on activities, and a collaborative learning lab, you'll turn knowledge into action and complete your certification ready to lead.
