- Agile Coaches
- Agile Release Train (ART) member
- Scrum Master

Prerequisites

- SAFe® Scrum Master Certificate
- SAFe® Agilist
- Practical experience in the role of Scrum Master, at least 1 year or at least 2 PIPE / ART iterations

Course Objectives

Reasons why a SAFe® Scrum Master should attend a SAFe® Advanced Scrum Master training course

- Confirmed professional development with career opportunities
- Deepen your SAFe® skills and acquire an Advanced Scrum Master certification.
- Timely and effective learning
- Deepen and update existing SAFe practices with learning content relevant to the daily needs of the organization
- A customizable learning experience at your own pace
- Progress at your own pace with a flexible online learning format with modular and blended learning.
- Selected, practical exercises
- Designed to go beyond theoretical knowledge and focus on actionable skills and practical application.
- A supportive learning environment
- Deepen your knowledge in the Learning Lab through expert guidance and facilitated peer-to-peer exchange.

Learning objectives

- Deepening and expanding your own Scrum Master expertise
- Develop and optimize Scrum Master practices and techniques
- Being able to tackle and resolve conflicts
- Optimize work processes and build a high-performance team

Course Content

The learning path comprises various modules:

1 Blended-Learning-Modul:

Advanced Facilitator: Conflict and Collaboration

- Self-directed learning (1.5-2h)
- Moderierter in-Class Workshop (4h)

3 on-demand modules

- On demand learning - at your own pace
- Accelerating Team Flow (1h)
- Measuring Team and ART Flow (1h)
- Cultivating High Performing Teams (1h)

Final lab with an experienced trainer

- Moderierter in-Class Workshop (4h)
- Final assessment by trainer and certification

Learning content

- Advanced facilitation and coaching techniques to resolve conflict in an effective and repetitive way and promote shared decision making.
- SAFe's eight flow accelerators, including measuring, optimizing and accelerating team and ART flow and overcoming blockages.
- Basic practices to promote self-direction, organization and collaboration in leading high-performing teams.
- The way to apply what you have learned through real-life scenarios based on case studies and practical application.
