Course Content

Protect your company proactively against risks: In this Management of Risk training, you will learn how to unerringly identify, assess, and control hazards and uncertainties - at the program, project, and strategy levels, as well as at the operational level. For well-founded decisions at all levels.

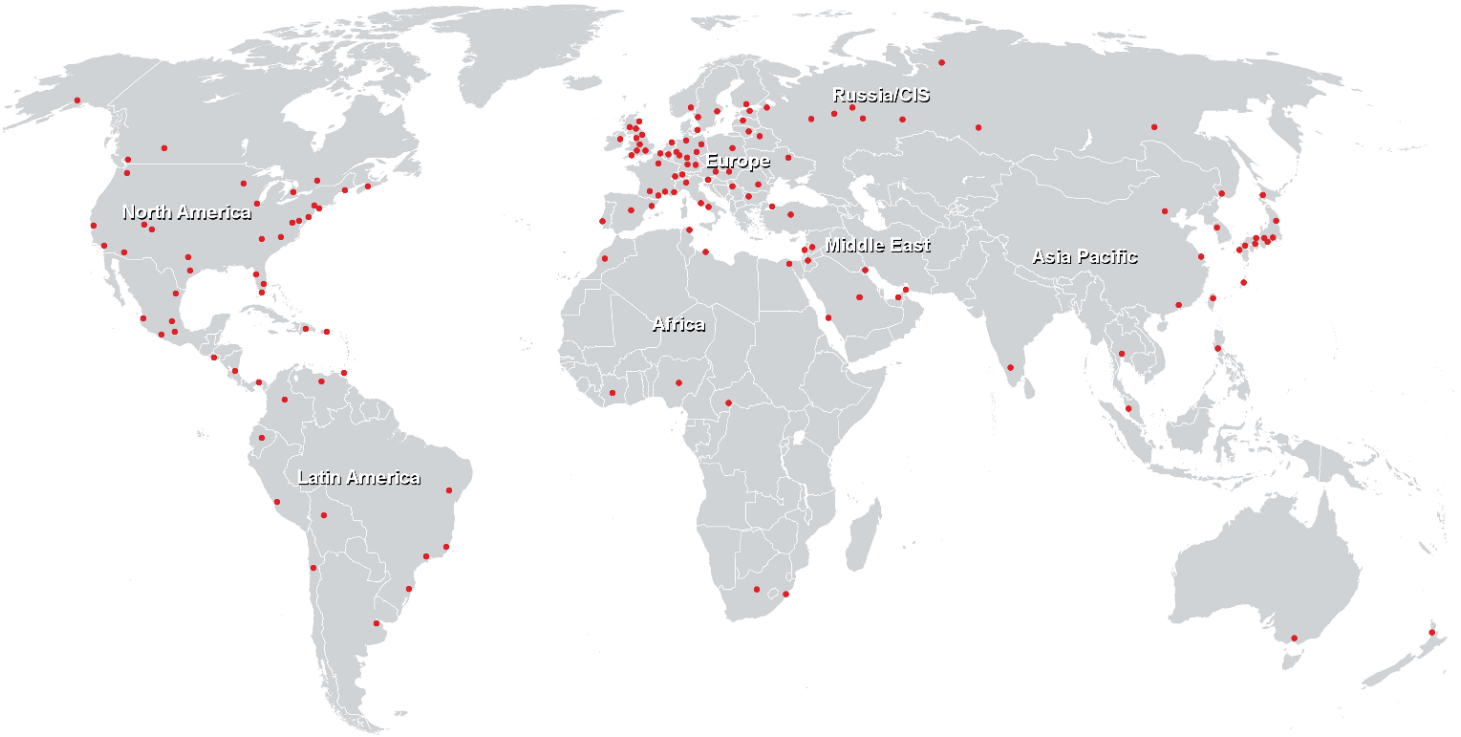

Effective risk management with M_o_R 4 puts value creation at the center: In today's VUCA world, fast, purposeful decisions in the face of uncertainty and business risk are essential. With clear guidance on how to manage risk, deploy resources, and integrate risk management into agile practices, M_o_R empowers you all around. That's because the established framework for risk management aligns with internationally recognized ISO standards and presents global perspectives that make it powerful regardless of industry, sector, or region. In addition, Version 4 focuses on the people in your organization. So you'll learn how to equip employees with the skills to manage risk in a collaborative, communicative, and transparent way.

You will learn all the content of the M_o_R Practitioner exam in a lively and entertaining way from our accredited trainers. The interactive Workbook Principle® helps you to combine what you have learned directly in the training with input from practice. This means that nothing stands in the way of your M_o_R 4 Practitioner certification - you internalize all content from recognizing and avoiding risks to creating a positive risk culture with fun and maximum practical relevance.

The M_o_R 4 training is officially accredited and meets the requirements of the Official Accreditor of the M_o_R Framework (AXELOS). Thus, you will pass your official M_o_R 4 Practitioner exam in a focused manner. In version 4, a Foundation exam is no longer required, because you learn all the content compactly in just three days and then start immediately in practice!
