## Building Splunk Classic Apps (BAWS)

ID BAWS Price on request Duration 9 hours

### Who should attend

Advanced Splunk users, administrators, and developers.

### Prerequisites

To be successful, students should have a solid understanding of the following:

- Splunk system administration
- Splunk data administration
- Python or a similar scripting language

### Course Objectives

- Plan, build, and manage Splunk apps
- Create a data generator
- Develop a custom search command
- Extend the Splunk REST API
- Construct a workflow action
- Validate an app with AppInspect
- Package and deploy an app

### Course Content

This 9-hour course focuses on Splunk app and add-on development. It's designed for application developers who want to create new apps for Splunk Enterprise and Splunk Cloud. Major topics include planning apps, building a data generator, creating custom search commands and REST endpoints, app packaging and deployment, and more.
