Transitioning to Splunk Cloud (TSC)

ID TSC **Price** CHF 1,100.—(excl. VAT) **Duration** 9 hours

Who should attend

Splunk Enterprise Administrators

This course is part of the following Certifications

Splunk Cloud Certified Admin (SCCA)

Prerequisites

To be successful, students must have completed these Splunk Education course(s) or have equivalent working knowledge:

- What is Splunk?
- Intro to Splunk
- Using Fields (SUF)
- Intro to Knowledge Objects
- Creating Knowledge Objects (CKO)
- Creating Field Extractions (CFE)
- Splunk Enterprise System Administration (SESA)
- Splunk Enterprise Data Administration (SEDA)

Additional courses and/or knowledge in these areas are also highly recommended:

- Basic understanding of common operating systems such as Linux
- Enriching Data with Lookups (EDL)
- Data Models (SDM)

Course Content

This course is for for experienced on-prem administrators and anyone needing to ramp-up on Splunk Cloud to get more knowledge and experience of managing Splunk Cloud instances.

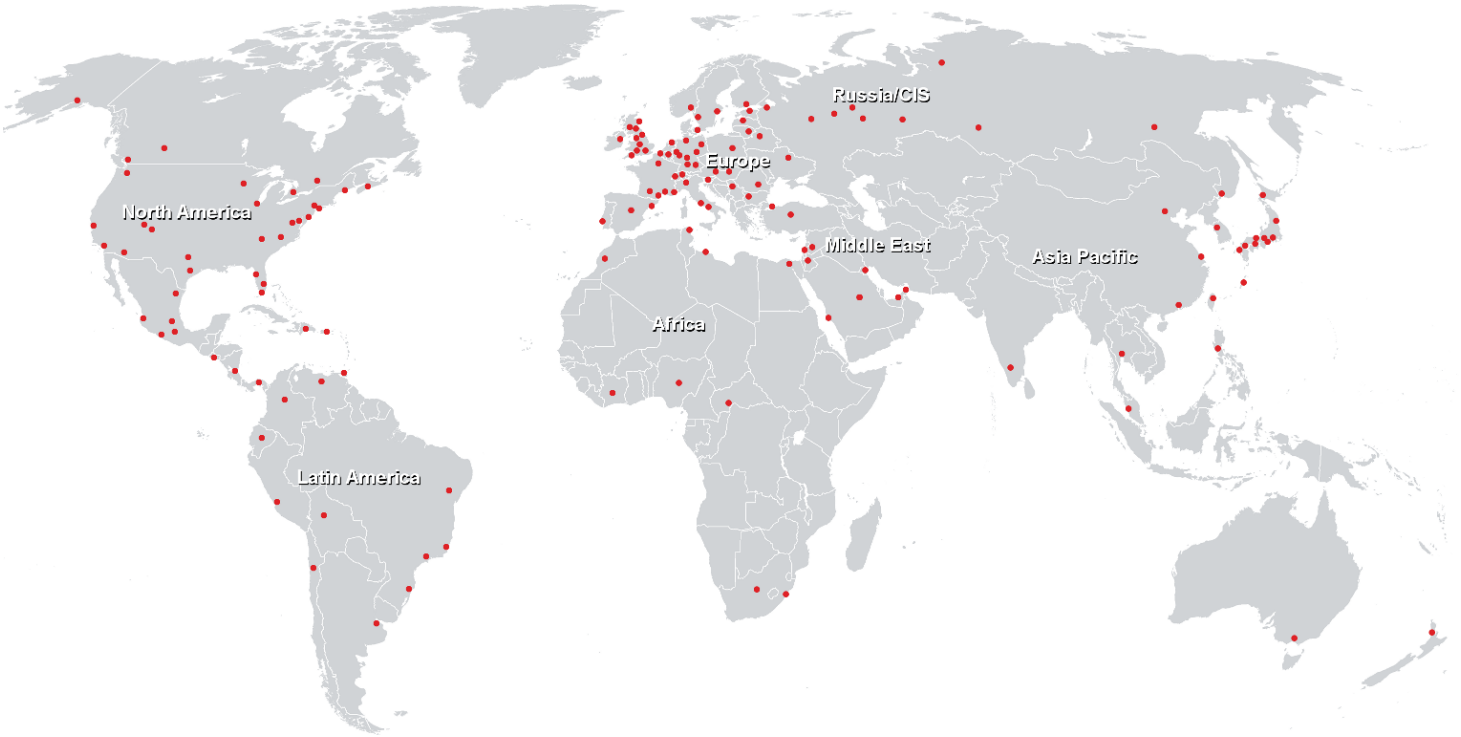

The course discusses the differentiators between on-prem Splunk and the different Splunk Cloud offerings. Modules include topics on how to migrate data collection and ingest from on-prem Splunk toSplunk Cloud as well as highlighting Splunk Cloud specific differences and best practices to manage a productive Splunk SaaS deployment. For Splunk Administrators who have undertaken the System and Data Administration learning pathways, this course highlights key differences between Splunk Enterprise deployed on-premises and Splunk Enterprise Cloud to allow to ramp up their data and system management skills to transition to Splunk Cloud. The hands-on lab provides access to and experience of managing a Splunk Cloud instance.

Note: Splunk Cloud Administration and Transitioning to Splunk Cloud SHOULD NOT be taken together as both are designed to develop Splunk Cloud-specific skills and as such there is some overlap.

Please note that this course may run over two days, with 4.5 hour sessions each day.
