

Advanced Packet Analysis with Wireshark Analyzer (APAW)

ID APAW **Price** CHF 2,890.—(excl. VAT) **Duration** 3 days

Who should attend

Network administrators and all other technical staff responsible for the planning, implementation and ensuring high performance operation of their data networks.

Prerequisites

Course participants should be familiar with the basic concepts of network analysis, the operation of Wireshark, and the creation of display and capture filters. This content is taught in the [Packet Analysis with Wireshark Analyzer \(PAW\)](#) course.

Course Objectives

This course provides participants with the knowledge necessary for detailed analysis and troubleshooting of typical network environments using Wireshark Analyzer. The main focus is on the analysis of TCP/IP networks and TCP/IP-based applications.

Course Content

- Switched Ethernet analysis
- TCP/IP analysis of the network layer
- TCP/IP analysis of the transport layer
- Analysis of TCP/IP with Wireshark
- TCP/IP applications
