

# Advanced Packet Analysis with Wireshark Analyzer (APAW)

ID APAW Price CHF 2,890.—(excl. VAT) Duration 3 days

#### Who should attend

Network administrators and all other technical staff responsible for the planning, implementation and ensuring high performance operation of their data networks.

#### **Prerequisites**

Course participants should be familiar with the basic concepts of network analysis, the operation of Wireshark, and the creation of display and capture filters. This content is taught in the <u>Packet</u> <u>Analysis with Wireshark Analyzer (PAW)</u> course.

#### **Course Objectives**

This course provides participants with the knowledge necessary for detailed analysis and troubleshooting of typical network environments using Wireshark Analyzer. The main focus is on the analysis of TCP/IP networks and TCP/IP-based applications.

## **Course Content**

- Switched Ethernet analysis
- TCP/IP analysis of the network layer
- TCP/IP analysis of the transport layer
- Analysis of TCP/IP with Wireshark
- TCP/IP applications
