

Scrum Master & Product Owner (SCMPO)

ID SCMPO Price CHF 2,200.—(excl. VAT) Duration 3 days

Who should attend

You are a project or team manager or professional, product manager or work in the field of project support or in a SCRUM team. You wish to gain a fundamental understanding of agile project management and SCRUM and to become an official SCRUM Master or SCRUM Product Owner and obtain the certificates.

Prerequisites

You need no previous knowledge to participate in the training. All necessary contents are communicated during the training, practical knowledge and experiences regarding SCRUM facilitate reaching the learning goal.

As a preparation for the training, we highly recommend reading through the official SCRUM-Guide in advance.

Course Objectives

In 3 days you will learn the basics of agile project management according to Scrum. This includes the basic principles, the contents, tasks and roles as Scrum Master and Product Owner. During your training you will acquire the necessary language skills and prepare for the official exams.

After the training you want to have new skills and knowledge. The Scrum Training for Scrum Master and Product Owner enables you to do the following:

- You can effectively participate in and lead an agile Scrum project environment.
- You know the responsibilities of a Scrum team and can move confidently in the various roles.
- You open up new career steps

Course Content

The training consists of the following theoretical and practical contents, which will prepare you best possible for the two official exams and the daily use of Scrum.
