

Scrum Product Owner (SCPO)

ID SCPO **Price** CHF 1,700.—(excl. VAT) **Duration** 2 days

Who should attend

software product's success in turbulent markets.

The Scrum Product Owner course is targeted to Product Owners and anyone else accountable for maximizing the value delivered by software products and services.

Scrum Masters benefit from this course as their role often includes coaching Product Owners.

Prerequisites

Attendees make the most of the class if they:

- Have studied the Scrum Guide (required).
- Passed the Scrum Open assessment.
- Have a solid understanding of Scrum either through working on a Scrum Team, or through taking part in a Professional Scrum Foundations or similar course.
- Have been on or are closely involved with the product management aspects of a software product or application.

Course Content

The Scrum Product Owner (PSPO) course is a 2-day course on how to maximize the value of software products and systems. Product Ownership in Scrum today requires more than knowledge of how to write requirements or manage a Product Backlog. Scrum Product Owners need to have a concrete understanding of everything that drives value from their products.

Students develop and solidify this understanding through instruction and team-based exercises. The breadth of the role's responsibilities in delivering a successful product becomes clear from an Agile perspective on product management. Metrics are identified to track the creation of value and the successful delivery of it to the marketplace. This defines the perspective from which the role of the Product Owner in the Scrum framework is taught.

Scrum Product Owner is THE cutting-edge course for Product Owners, Agile product managers and anyone responsible for a
