

CompTIA Security+ (SECURITY+)

ID SECURITY+ Prix CHF 4 200,- (Hors Taxe) Durée 5 jours

Pré-requis

Before attending this accelerated course, you should have:

- 2 year's experience in IT administration with a security focus
- An understanding of operating systems and knowledge of Windows-based systems
- The ability to identify basic network components and their roles, including routers, switches, firewalls and server roles.
- Some knowledge of firewall configurations
- An understanding of Wireless networks
- An understanding of the OSI Model and TCP/IP including IPv4 subnetting

- Technologies and Tools
- Architecture and Design
- Identity and Access Management
- Risk Management
- Cryptography and PKI

We also recommend you have attended the CompTIA A+ and/or [CompTIA Network+ \(NETWORK+\)](#) course.

Objectifs

In this course you'll learn how to troubleshoot security events and incidents, and operate within applicable policies, laws, and regulations.

Provide infrastructure, application, information, and operational security by identifying and mitigating risks. CompTIA's Security+ is a vendor neutral certification developed with input from industry, government, academia and front-line practitioners.

You'll learn about the following CompTIA Security+ topics:

- Attacks, Threats, and Vulnerabilities
- Architecture and Design
- Implementation
- Operations and Incident Response
- Governance, Risk, and Compliance

Contenu

You'll study the following Security+ domains:

- Threats, Attacks and Vulnerabilities
