

MLOps Engineering on AWS (MLOE)

ID MLOE Prix CHF 2 390,- (Hors Taxe) Durée 3 jours

A qui s'adresse cette formation

This course is intended for:

- MLOps engineers who want to productionize and monitor ML models in the AWS cloud
- DevOps engineers who will be responsible for successfully deploying and maintaining ML models in production

Pré-requis

We recommend that attendees of this course have

- AWS Technical Essentials course (classroom or digital)
- [DevOps Engineering on AWS \(AWSDEVOPS\)](#), or equivalent experience
- [Practical Data Science with Amazon SageMaker \(PDSASM\)](#), or equivalent experience

[/list]

Objectifs

In this course, you will learn to:

- Explain the benefits of MLOps
- Compare and contrast DevOps and MLOps
- Evaluate the security and governance requirements for an ML use case and describe possible solutions and mitigation strategies
- Set up experimentation environments for MLOps with Amazon SageMaker
- Explain best practices for versioning and maintaining the integrity of ML model assets (data, model, and code)
- Describe three options for creating a full CI/CD pipeline in an ML context
- Recall best practices for implementing automated packaging, testing and deployment. (Data/model/code)
- Demonstrate how to monitor ML based solutions
- Demonstrate how to automate an ML solution that tests, packages, and deploys a model in an automated fashion; detects performance degradation; and re-trains the model on top of newly acquired data
