Onboard to Jira Cloud (OJC)

ID OJC **Prix** sur demande **Durée** 2 jours

Contenu

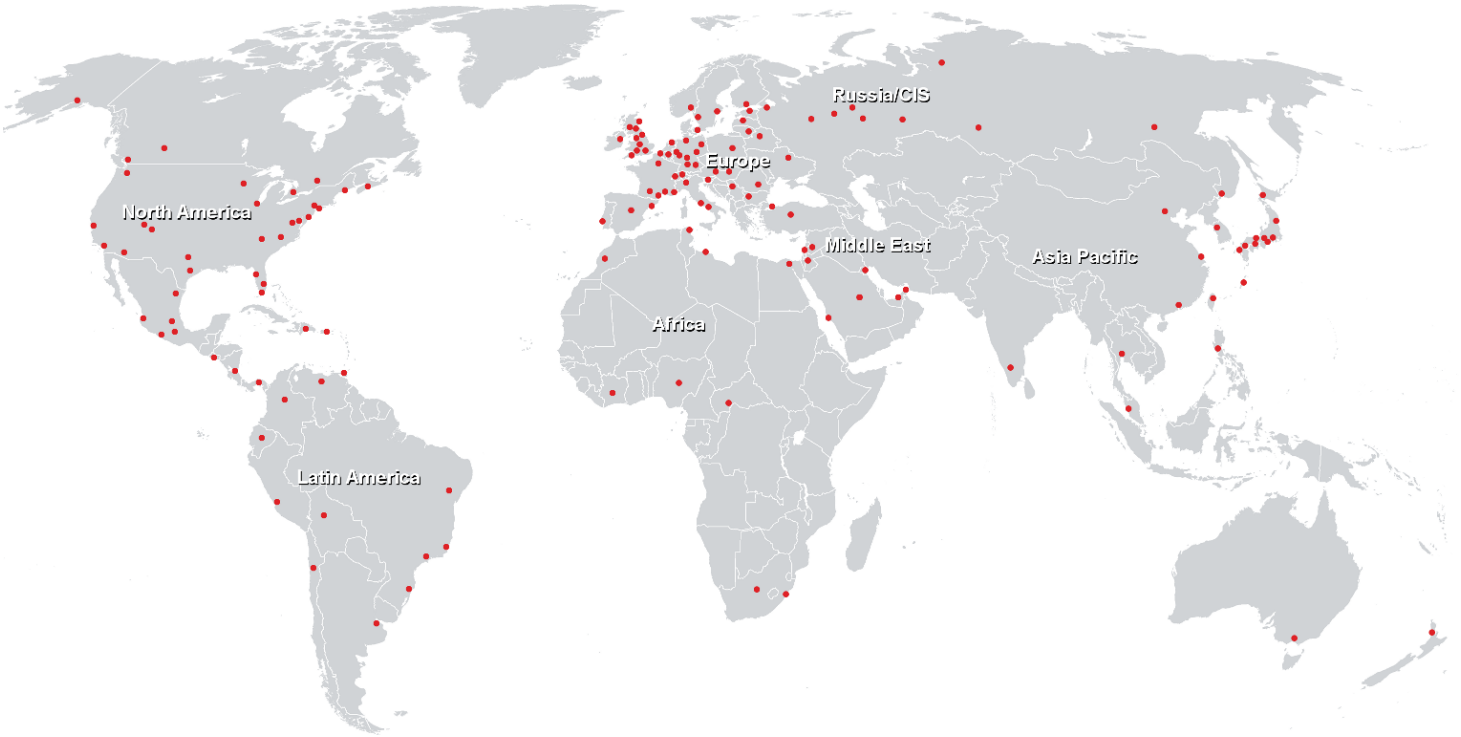

This instructor-led training helps teams quickly get started with Jira and adopt consistent ways of planning and tracking work.

Participants learn how to navigate Jira, create and manage work, and use boards to track progress. They also explore how to find information using search and Rovo, and gain visibility into projects and team performance with dashboards.

Through hands-on exercises and real-world scenarios, teams build practical skills to collaborate more effectively, improve transparency, and increase productivity from day one.
