

NiFi 2.0: Data Flow Migration and AI Integration (DOPS-243)

ID DOPS-243 Prix US \$ 1 760,— (Hors Taxe) Durée 2 jours

A qui s'adresse cette formation

This course is designed for developers, data engineers, administrators, and others with an interest in learning NiFi's innovative no-code, graphical approach to data ingest. Although programming experience is not required, basic experience with Linux is presumed, and previous exposure to big data concepts and applications is helpful.

Pré-requis

Participants should have a foundational understanding of data flow concepts and experience with Apache NiFi. Familiarity with Python programming is beneficial but not mandatory.

Objectifs

During this course, you learn how to:

- Integrate Generative AI with Apache NiFi 2.0, including practical use cases.
- Understand the key changes in NiFi 2.0 compared to NiFi 1.x, such as deprecated processors and their new replacements.
- Clarify the differences between open-source NiFi 2.0 and Cloudera CFM4 with NiFi 2.0, with a focus on Cloudera-specific processors for GenAI.
- Perform a migration from NiFi 1.x to NiFi 2.0 and effectively monitor your new NiFi 2.0 instance.
