

## VxRail Installation and Implementation (VXRIA)

**ID VXRIA** **Prix US \$ 3 300,- (Hors Taxe)** **Durée 3 jours**

### A qui s'adresse cette formation

This course is intended for Dell EMC employees and Dell EMC partners who are responsible for the deployment and implementation of VxRail Appliance at customer sites.

### Pré-requis

- Basic understanding of converged and hyper-converged infrastructure
- Technical proficiency with all VMware vSphere components
- Knowledge of Layer-2 Networking

### Objectifs

Upon successful completion of this course, participants should be able to:

- Describe the VxRail installation and implementation process
- Download, review, and validate the Pre-Engagement Questionnaire (PEQ)
- Perform pre-deployment preparation and validation tasks
- Deploy a VxRail system with embedded or external vCenter Server
- Deploy a vSAN 2-node VxRail cluster
- Perform post-deployment validation tasks
- Perform cluster expansion
- Perform software upgrade
- Perform installation troubleshooting

### Contenu

- Plan and Prepare for Deployment
- Prepare the Site for System Initialization
- Validate the Customer Environment for Deployment
- Deploy a VxRail Cluster
- Perform Post Deployment Tasks
- Generate Customer Deliverables
- Perform Software Upgrade
- Cluster Expansion and Stretched Cluster Deployment
- Implementation Troubleshooting
