Troubleshooting BIG-IP LTM (TRG-BIG-TRBL-INT2)

ID TRG-BIG-TRBL-INT2 **Prix** US $ 2 420,– (Hors Taxe) **Durée** 2 jours

A qui s'adresse cette formation

This course assumes that you have successfully completed the Administering BIG-IP course, or equivalent, and have hands-on experience working in a production BIG-IP LTM environment for several months. You should have a solid understanding of the environment in which the BIG-IP is deployed. This course is meant for BIG-IP administrators, network engineers, applications engineers, etc., who will be responsible for troubleshooting problems associated with their BIG-IP system.

Pré-requis

Students should be familiar with the BIG-IP LTM system and, in particular, how to setup and configure a BIG-IP LTM system, including virtual servers, pools, profiles, VLANs and self-IPs.

Students are required to complete one of the following F5 prerequisites before attending this course:

- Administering BIG-IP V11 instructor-led course - F5 Certified BIG-IP Administrator - In addition, the following web-based courses will be very helpful for any student with limited BIG-IP LTM administration and configuration:

- Getting Started with BIG-IP web-based training - Getting Started with BIG-IP Local Traffic Manager (LTM) web-based training
Students should understand:

- TMOS administration - Network concepts and configuration - Programming concepts

Contenu

Topics covered in this course include:

• Configuration Project • Troubleshooting Methodology • F5 Support • BIG-IP Product Architecture • Troubleshooting - Bottom to Top • Troubleshooting Tools • Using System Logs
