# Introduction to Developer Efficiency with Gemini on Google Cloud

ID IDEGC Prix sur demande Durée 1 jour

## A qui s'adresse cette formation

Application developers and others who wish to understand how generative AI on Google Cloud can make development more efficient

## Pré-requis

[Google Cloud Fundamentals: Core Infrastructure \(GCF-CI\)](#) or equivalent Google Cloud experience.

## Objectifs

- Understand the efficiency challenges in a developer workflow and how generative AI can make developers more efficient.
- Use Gemini Code Assist to more efficiently write code for your applications.
- Use Gemini in Google Cloud to quickly summarize your application logs.
- Explain the fundamentals of prompt design when using Gemini Code Assist.
- Integrate the Gemini and PaLM APIs in your applications to use generative AI.
- Explore available models in Vertex AI Model Garden.
