

# Managing Google Cloud's Apigee API Platform for Hybrid Cloud (T-APIHYB-B)

ID T-APIHYB-B Prix CHF 2 550,- (Hors Taxe) Durée 3 jours

## A qui s'adresse cette formation

Cloud Architect, Cloud Engineer and Operation Specialists

## Pré-requis

- Familiarity with Linux command and command line interface
- Basic understanding of Google Cloud.
- Basic understanding of GKE.
- Basic understanding of networking.
- Basic understanding of shell script, XML, JSON, HTTP, REST, and TLS.

## Objectifs

- Identify the purpose and value of Apigee API Platform.
- Gain detailed understanding of Apigee API Platform architecture and recommended practices for topology design.
- Gain detailed understanding of Apigee terminology and logical organizational structures.
- Interact with Apigee API Platform and solve scenarios by leveraging recommended practices.
- Understand capabilities and practices to secure, manage and scale the platform.
- Understand and put in practice installation and upgrade processes

## Contenu

This course introduces you to fundamentals and advanced practices applicable to the installation and management of Google Cloud's Apigee API Platform for hybrid cloud.

Through a combination of lectures, hands-on labs, and supplemental materials, you will learn how to design, install, secure, manage, and scale Apigee API Platform.
