Agent Platform for Machine Learning Practitioners (VAIMLP)

ID VAIMLP **Prix** CHF 850,– (Hors Taxe) **Durée** 1 jours

A qui s'adresse cette formation

Machine Learning Engineers, Data Scientists

Pré-requis

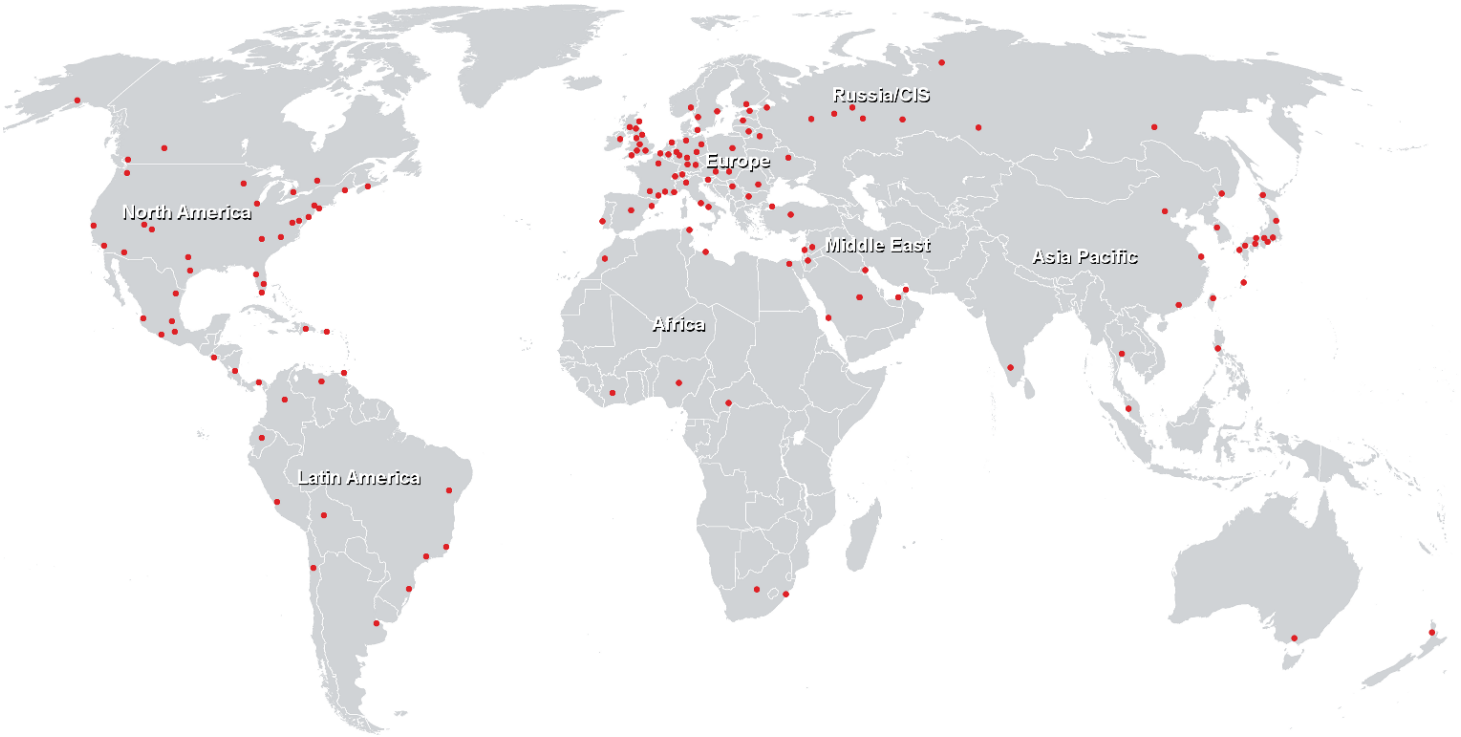

Experience building and training custom ML models. Familiar with Docker.

Objectifs

By the end of the course, learners will be able to:

- Understand the key components of Agent Platform and how they work together to support your ML workflows.
- Configure and launch Vertex AI Custom Training and Hyperparameter Tuning Jobs to optimize model performance.
- Organize and version your models using Agent Platform Model Registry for easy access and tracking.
- Configure serving clusters and deploy models for online predictions with Agent Platform Endpoints.
- Operationalize and orchestrate end-to-end ML workflows with Agent Platform Pipelines for increased efficiency and scalability.
- Configure and set up monitoring on deployed models
