

## HPE GreenLake Cloud Practitioner Foundations (H61P0S)

ID H61P0S Prix sur demande Durée 2 jours

### A qui s'adresse cette formation

T Support and/or Technical roles that perform day-to-day IT operations for HPE GreenLake environments.

- Module 3: Accessing Support
- Module 4: Identity and Access Management (IAM)
- Module 5: Consumption Analytics and Billing
- Module 6: Capacity Planning
- Demo: Viewing the Capacity Planning Summary card

### Pré-requis

Students should possess one to two years working as an IT or cloud administrator, architect, or engineer and have general knowledge and experience around IT and cloud architectures, virtualization, containers, operations, and cloud administration.

### Objectifs

The focus for this training is to gain an understanding of the administrative and operational aspects of HPE GreenLake Cloud Services, while gaining an understanding of utilizing HPE GreenLake Central (GLC) for managing and operating HPE GreenLake services and solutions. After completing this course, students should be able to:

- Describe the purpose and use of the HPE GreenLake Edge-to-Cloud platform
- Identify HPE GreenLake Cloud Services
- Describe the purpose and features of HPE GreenLake for Private Cloud Enterprise
- Explain the Shared Responsibility Model for HPE GreenLake services
- Describe how to obtain support for HPE GreenLake Services
- Explain the principle of role-based access control used in HPE GreenLake services
- Describe how to track HPE GreenLake costs and utilization
- Identify the features of capacity planning services in HPE GreenLake

### Contenu

- Module 0: Course overview and introduction
- Module 1: HPE GreenLake Cloud Services
- Module 2: Shared Responsibility
