

# IBM System z Parallel Sysplex Operations (ES73G)

ID ES73G Prix CHF 2 700,- (Hors Taxe) Durée 3 jours

# A qui s'adresse cette formation

The audience includes operations personnel and technical staff who are directly involved in the installation, operation, systems support, and software support of their Parallel Sysplex environment.

## **Pré-requis**

You should have an understanding of:

- · Basic data processing and I/O concepts and terminology
- z/OS console operation, including display of device, job, and console status

## Contenu

This course is designed so that students can learn how z/OS systems operate in a Parallel Sysplex environment through discussion topics and hands-on lab exercises. Students learn problem determination skills, practice enhanced sysplex operations, including management of the coupling facility (CF), and use recovery capabilities provided by the System z servers.

The course consists of six units and 12 hands-on lab exercises.
