Fast Lane

DFSMS/MVS Implementation (SS84G)

ID SS84G **Prix** CHF 4 100,– (Hors Taxe) **Durée** 4 jours

A qui s'adresse cette formation

This is an intermediate course is for personnel responsible for developing and implementing effective storage management techniques using DFSMS.

Pré-requis

You should take the following courses or equivalent knowledge may be substituted for these courses.

- *Introduction to Storage (SS01G)*

It is recommended that the student have programming experience which will aid in the writing of the ACS routines.

Contenu

This course provides the skills required to plan and implement Data Facility Storage Management Subsystem (DFSMS). A step-by-step implementation strategy, emphasizing coexistence considerations, is reinforced by hands-on labs. In the hands-on labs, students will be creating constructs as well as coding ACS routines. This milestone approach includes managing temporary and permanent data sets. The course also discusses exploitation of functions provided by DFSMS as the installation evolves to the DFSMS environment.
