

# Implementing Juniper Networks Secure Analytics (IJSA)

ID IJSA Prix US \$ 2 400,- (Hors Taxe) Durée 3 jours

#### Pré-requis

This course assumes that students have basic networking knowledge and experience in the following areas:

- Understanding of TCP/IP operation;
- · Understanding of network security concepts; and
- Experience in network security administration.

#### **Objectifs**

After successfully completing this course, you should be able to:

- Describe the JSA system and its basic functionality.
- Describe the hardware used with the JSA system.
- Identify the technology behind the JSA system.
- Identify the JSA system's primary design divisions—display versus detection, and events versus traffic.
- Plan and prepare for a new installation.
- · Access the administration console.
- Configure the network hierarchy.
- Configure the automatic update process.
- Access the Deployment Editor.
- Describe the JSA system's internal processes.
- Describe event and flow source configuration.
- List key features of the JSA architecture.
- Describe the JSA system's processing logic.
- Interpret the correlation of flow data and event data.
- List the architectural component that provides each key function
- Describe Events and explain where they come from.
- · Access the Log Activity interface.
- Execute Event searches.
- · Describe flows and their origin.
- Configure the Network Activity interface.
- Execute Flow searches.
- Specify the JSA system's Asset Management and Vulnerability Assessment functionality.
- · Access the Assets interface.
- · View Asset Profile data.
- View Server Discovery.
- Access the Vulnerability Assessment Scan Manager to produce vulnerability assessments (VAs).
- · Access vulnerability scanner configuration.
- View vulnerability profiles.

- · Describe rules.
- · Configure rules.
- · Configure Building Blocks (BBs).
- · Explain how rules and flows work together.
- · Access the Offense Manager interface.
- · Understand Offense types.
- · Configure Offense actions.
- · Navigate the Offense interface.
- Explain the Offense summary screen.
- · Search Offenses.
- Use the JSA system's Reporting functionality to produce graphs and reports.
- · Navigate the Reporting interface.
- · Configure Report Groups.
- Demonstrate Report Branding.
- · View Report formats.
- Identify the basic information on maintaining and troubleshooting the JSA system.
- Navigate the JSA dashboard.
- List flow and event troubleshooting steps.
- Access the Event Mapping Tool.
- Configure Event Collection for Junos devices.
- Configure Flow Collection for Junos devices.
- Explain high availability (HA) functionality on a JSA device.

#### Contenu

#### Day 1

#### **Chapter 1: Course Introduction**

#### **Chapter 2: Product Overview**

- · Overview of the JSA Series Device
- Hardware
- Collection
- Operational Flow

#### **Chapter 3: Initial Configuration**

- · A New Installation
- Administration Console
- Platform Configuration
- Deployment Editor
- Lab 1: Initial Configuration

## **Chapter 4: Architecture**

# Implementing Juniper Networks Secure Analytics (IJSA)

- · Processing Log Activity
- · Processing Network Activity
- JSA Deployment Options

## **Chapter 5: Log Activity**

- · Log Activity Overview
- Configuring Log Activity
- · Lab 2: Log Activity

#### Day 2

#### **Chapter 6: Network Activity**

- Network Activity Overview
- Configuring Network Activity
- Lab 3: Network Activity

#### **Chapter 7: Assets and Vulnerability Assessment**

- Asset Interface
- · Vulnerability Assessment
- Vulnerability Scanners
- Lab 4: Assets and Vulnerability Assessment

#### **Chapter 8: Rules**

- Rules
- Configure Rules and Building Blocks
- Lab 5: Rules

### **Chapter 9: Offense Manager**

- •
- Offense Manager
- Offense Manager Configuration
- Offense Investigation
- Lab 6: Configure the Offense Manager

# Day 3

#### **Chapter 10: JSA Reporting**

- · Reporting Functionality
- Reporting Interface
- Lab 7: Reporting

# **Chapter 11: Basic Tuning and Troubleshooting**

- · Basic Tuning
- Troubleshooting

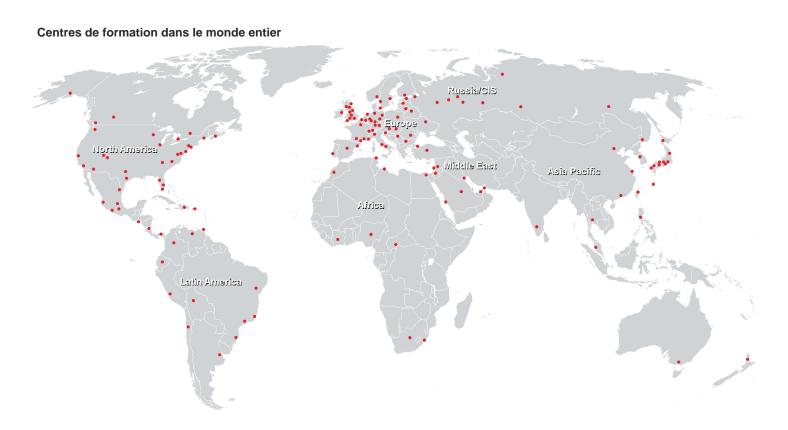

# Chapter 12: Configuring Junos Devices for Use with JSA

- Collecting Junos Events
- Collecting Junos Flows
- Lab 8: Configuring Junos Devices for JSA

## Appendix A: High Availability

- · High Availability
- · Configuring High Availability
