

Computer Vision for Industrial Inspection (CVII)

ID CVII Prix sur demande Durée 1 jour

Cette formation prépare à la/aux certifications

NVIDIA-Certified Associate: Generative AI
Multimodal (NCA-GENM)

Pré-requis

- Experience with Python; basic understanding of data processing and deep learning.
- To gain experience with Python, we suggest this Python tutorial.
- To get a basic understanding of data processing and deep learning, we suggest DLI's Fundamentals of Deep Learning.

Objectifs

- Extract meaningful insights from the provided data set using Pandas DataFrame.
- Apply transfer-learning to a deep learning classification model.
- Fine-tune the deep learning model and set up evaluation metrics.
- Deploy and measure model performance.
- Experiment with various inference configurations to optimize model performance.
