

Workspace ONE UEM Administration (WS1UEMADM)

ID WS1UEMADM Prix sur demande Durée 5 jours

A qui s'adresse cette formation

- Systems Engineers
- Consulting Architects
- Microsoft End-User Computing Specialists

Pré-requis

Recommended:

- Omnisia Certified Professional – Workspace (OCPW)
- Level 100 understanding of Workspace ONE UEM

Objectifs

The philosophy at the heart of Workspace ONE is the end-user experience: simple yet secure, regardless of the endpoint platform.

By the end of this session, attendees should be able to:

- Integrated core components of Workspace ONE UEM
- Demonstrate architectural understanding for how UEM components work together to provide a solution
- Grasp core management capabilities on each platform (iOS, Android, Windows)
- Understand how to streamline the onboarding, enrollment and provisioning process for each platform
- Configure Workspace ONE Tunnel to ensure secure access to corporate resources
- Deploy Android Enterprise in work managed or COPE mode
- Implement multi-user on Windows 11
- Deploy Apps-on-Demand with a view to maintaining redundancy and enhancing manageability in a multi-site Enterprise.
- Facilitate and manage the end-user experience for Microsoft Windows Users using Dynamic Environment Manager.
- Integrate with ThinApp to help with legacy application and platform challenges.
