ArcSight Management Center (ArcMc) Administration (ARCMCA)

ID ARCMCA **Prix** sur demande **Durée** 5 jours

A qui s'adresse cette formation

System Administrators interested in managing ArcSight components centrally.

Pré-requis

To be successful in this course, you should have the following prerequisites or knowledge:

- Familiar with the installation and configuration of ArcSight Connectors
- Basic understanding of ArcSight Logger functionality such as event searches, Receivers and User Management
- Basic understanding of the ArcSight Platform Solution and Transformation Hub component

Objectifs

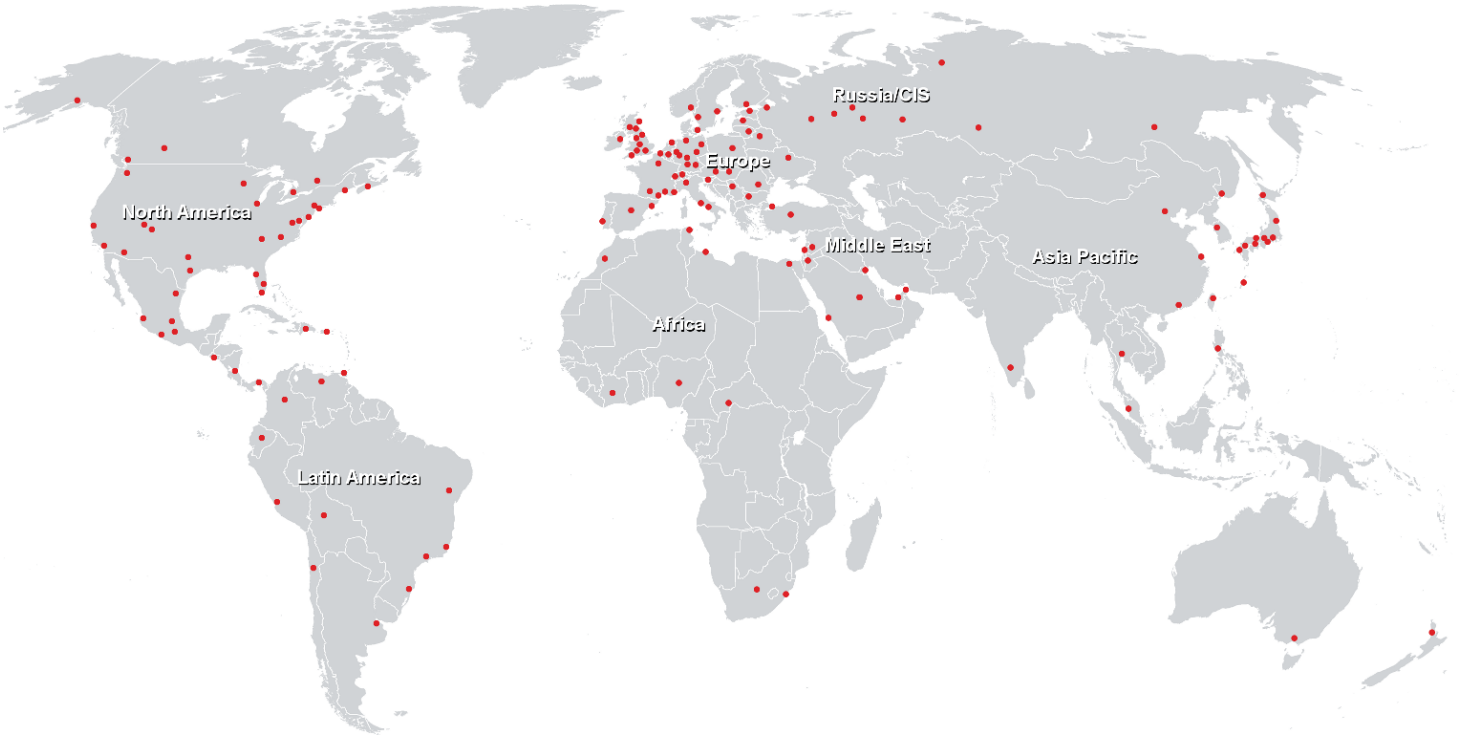

On completion of this course, participants should be able to:

- Describe ArcMC product features
- Perform the installation and administration of standalone ArcMC devices
- Perform the configuration of Core ArcMC in an ArcSight Platform instance
- Implement Role-based access to manage users and groups for Loggers and ArcMCs
- Identify the scenarios for using ArcMC Node Management and Configuration Management features
- Perform rapid installation of connectors using ArcMC Instant Connector Deployment feature
- Centrally enable monitoring and alerts for managed ArcSight components
- Create Configuration Templates to rapid configure subscribers and identify non-compliant managed components.
- Understand the upgrade process for Connectors, Loggers and standalone ArcMCs

Contenu

- Introduction to Product Features and Architecture
- Installing Software ArcMC (Non-Containerized)
- System Administration for ArcMC (Non-Containerized)
- Node Management with Fusion ArcMC (Containerized) – ArcMC and Logger Nodes
- Node Management – Importing Hosts with Connectors using Core and Software ArcMC Consoles
- Node Management – Managing Connector Parameters using ArcMC Console
- Configuration Management
- Managing Users on Managed Products
- Documenting Capabilities in ArcSight Platform Instance
- Managing Transformation Hub - Importing Host in Core ArcMC
- Managing Transformation Hub – Routing Events Between Topics
- Managing Breach Rules and Monitoring Dashboards in ArcMC
- Generator ID Management in ArcMC
- ArcMC Product Administration – Application Tools
- ArcMC Product Administration – Repositories and Node Upgrades
