

Panorama: Managing Firewalls at Scale (EDU-220)

ID EDU-220 Prix CHF 2 090,- (Hors Taxe) Durée 2 jours

A qui s'adresse cette formation

- Security Administrators
- Security Operations Specialists
- Security Analysts
- Security Engineers
- Security Architects

Cette formation prépare à la/aux certifications

Palo Alto Networks Certified Network Security Engineer (PCNSE)
Palo Alto Networks Micro-Credential Remote network
Administrator (PMRNA)

Pré-requis

Students must have completed the [Firewall Essentials: Configuration and Management \(EDU-210\) 11.1](#) class and be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

Objectifs

This course should help students to gain in-depth knowledge about how to configure and manage a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network. Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next-generation firewalls.
