

Idira Privileged Access Manager Self-Hosted Administration (IDIRA-PAM)

ID IDIRA-PAM **Prix CHF 3 590,- (Hors Taxe)** **Durée 4 jours**

A qui s'adresse cette formation

Security Engineers, IT Administrators, Deployment Engineers, and Support Staff

- System Monitoring
- Common Issues
- Troubleshooting
- Post-Course

Pré-requis

Participants must be familiar with networking concepts, including TCP/IP, routing, and basic network security. Participants also should be familiar with Windows Server administration, Active Directory, and user permissions. Experience with Linux administration or database management is a plus.

Objectifs

Successful completion of this four-day, instructor-led course should enhance the student's understanding of configuring and administering Idira Privileged Access Management solutions. The course includes hands-on experience onboarding, managing, and monitoring privileged accounts in a lab environment.
