Idira Privileged Access Manager SaaS Setup and Manage (IDIRA-PAMSSM)

ID IDIRA-PAMSSM **Prix** CHF 3 590,– (Hors Taxe) **Durée** 4 jours

A qui s'adresse cette formation

Security Engineers, Deployment Engineers, IT Administrators, and Technical Support Staff

Pré-requis

Participants should have a solid foundation in basic networking concepts, Windows Server administration, and basic Linux administration. An internet connection and a browser supporting HTML5 are also required

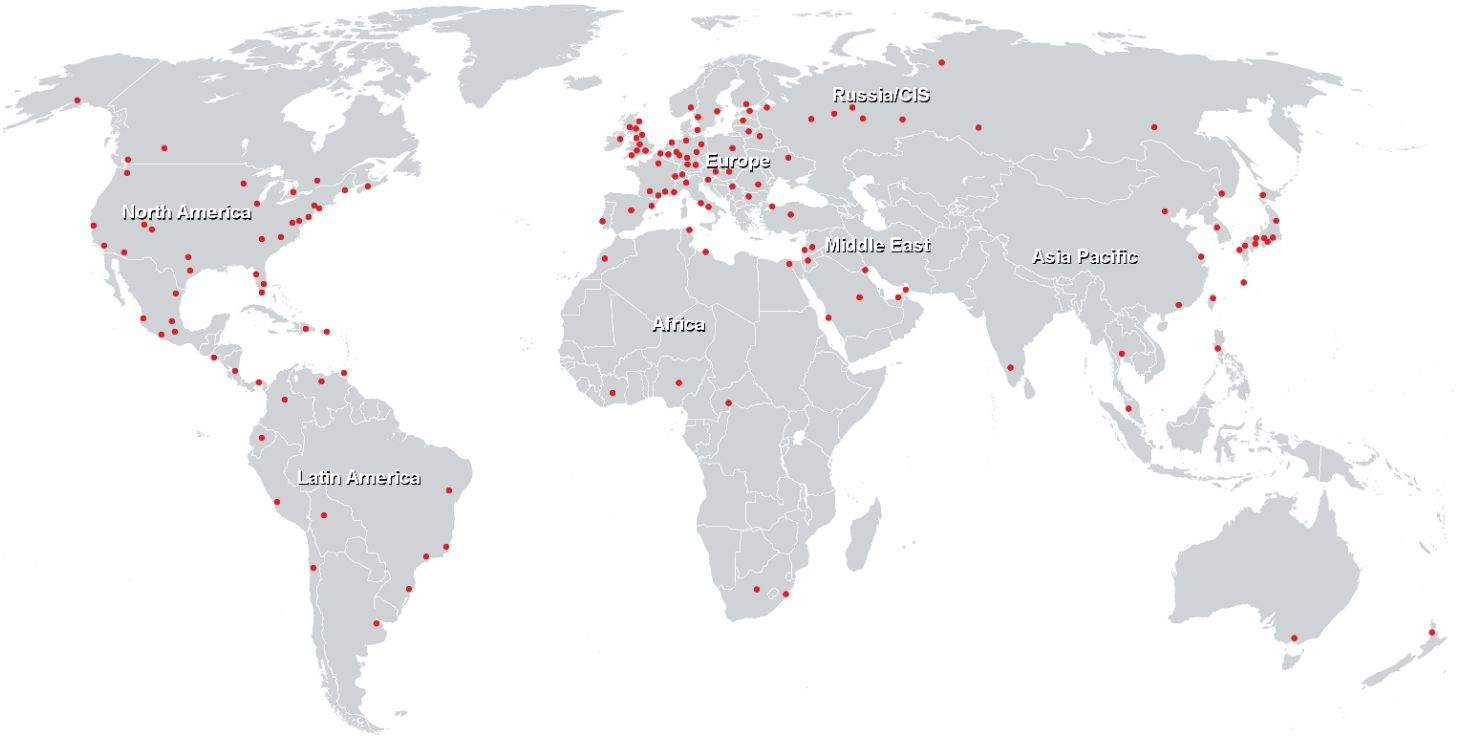

Objectifs

Successful completion of this four-day, instructor-led course should enhance the student’s understanding of deploying, administering, monitoring, and troubleshooting the implementations. The course includes hands-on experience deploying connector servers, managing credential vaulting and rotation, configuring secure access to critical assets, and resolving setup issues in a lab environment.
