

Enriching Data with Lookups (EDL)

ID EDL Prix sur demande Durée 3 heures

A qui s'adresse cette formation

Search Experts and Knowledge Managers

Cette formation prépare à la/aux certifications

Splunk Core Certified Advanced Power User (SPCCAPU)

Pré-requis

To be successful, students should have a solid understanding of the following:

- How Splunk works
- Knowledge objects

Objectifs

- What is a Lookup?
- Creating Lookups
- Geospatial Lookups
- External Lookups
- KV Store Lookups
- Best Practices for Lookups

Contenu

This three-hour module is for knowledge managers who want to use lookups to enrich their search environment. Topics will introduce lookup types and cover how to upload and define lookups, create automatic lookups, and use advanced lookup options. Additionally, students will learn how to verify lookup contents in search and review lookup best practices.
