Linux Advanced Administration (LIN2)

ID LIN2 **Prix** CHF 2 890,– (Hors Taxe) **Durée** 4 jours

A qui s'adresse cette formation

The course is intended for people who already have experience with Linux, including general system configuration and the use of the command line.

The course is ideal for those who wish to gain advanced administrative knowledge of Linux and have attended the Linux Basics (LINBASIC) and Linux Administration (LIN1) courses.

Pré-requis

We recommend the participation in the courses Linux Basics (LINBASIC) and Linux Administration (LIN1) in advance.

Objectifs

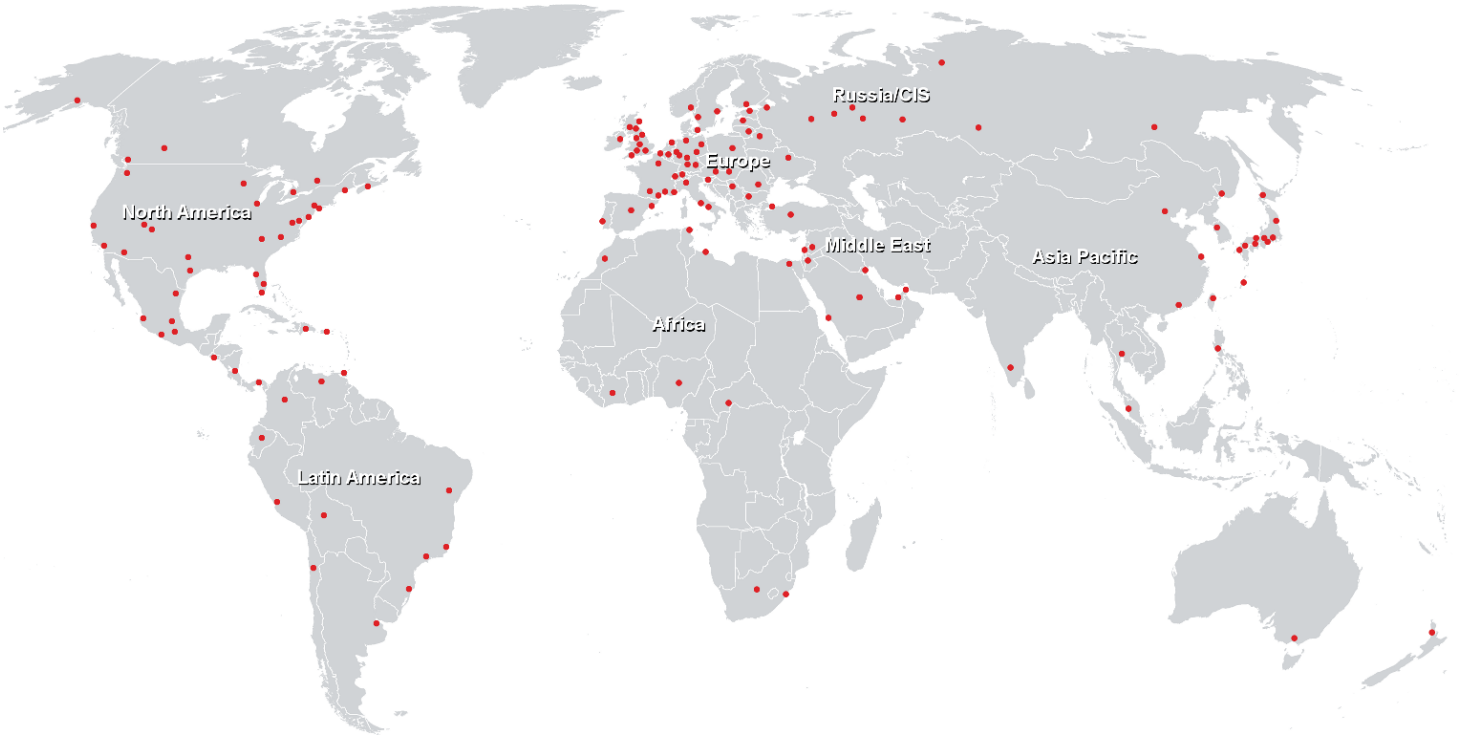

Even if you already successfully operate and manage server systems under Linux, there are versatile and advanced possibilities and methods to provide services in the network. This training completes your knowledge of Linux and provides you with an in-depth basis for mastering challenging tasks!
