Fast Lane

C# Foundation (MSDEV02)

ID MSDEV02   **Prix** CHF 1 490,– (Hors Taxe)   **Durée** 2 jours

A qui s'adresse cette formation

Programmers who already have some experience with a C-based language such as C/C++, Java, Python or JavaScript.

Pré-requis

Good knowledge of programming languages such as Visual Basic or C or basic knowledge of programming languages such as C++ or Java.
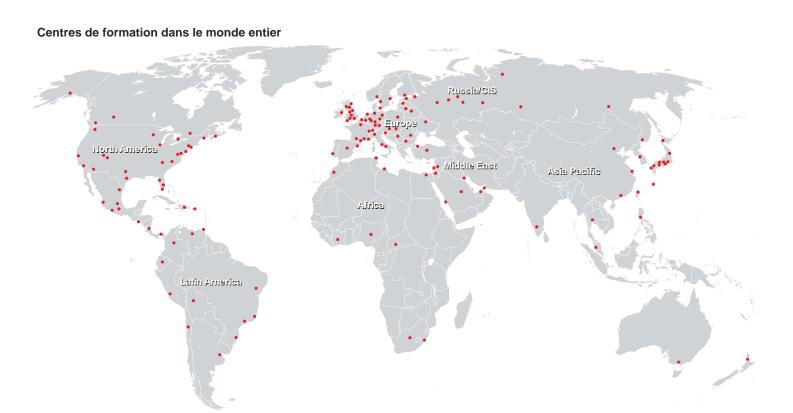

Objectifs

- You know the syntax of C#
- You can create simple programs independently

Contenu

C# is an object-oriented programming language for applications on Microsoft's .NET platform. With C#, you can create Windows desktop applications, Windows services, ASP.NET web applications, REST services, apps for iOS and Android, and more - in short, any kind of program on almost any platform. In this introductory course, you'll learn key language features within .NET and the associated Visual Studio development environment.

- First steps with C#
- Classes and objects
- Basic data types
- Sequence control: branches and loops
- Operatoren
- Inheritance and interfaces
- Properties and Indexer
- Structured exception handling
